

# ram 200

## PRODUCT DESCRIPTION

**ram 200** is a reinforced SBS Kraton Modified Bitumen membrane with smooth sanded surface. It is designed for hot mop applications.

**ram 200** is durable and resilient with excellent tensile properties.

## USES

With **ram-Tough** BUR and **ram-Tough** Waterproofing Systems, for protection course and flashings, including wall flashings. Also used as a cap sheet with asphalt built-up roofs. Material has excellent adaptability to extreme temperature ranges, good chemical resistance and is 100% compatible with **ram-Tough** modified bitumens.

## Packaging

Roll Size	33 feet x 39 inches (one square)
Weight	77 pounds per roll

## Performance

Thickness	2.3 mm
Surfacing	smooth, sanded
Reinforcement	polyester mat
Polymer Modifier	SBS

Breaking Strength	ASTM-D-412	MD	119 pounds per inch
		XD	88 pounds per inch
Elongation	ASTM-D-412	50%	
Cold Bend	CGSB-37-GP56M	0°F
